SUMMARY

Full Stack AI Developer and Software Engineer who designs and ships complete digital products — from responsive web and mobile front ends to scalable APIs and AI-powered backends. Experienced across the React ecosystem (React.js, Next.js, React Native) with Node.js, Express.js, and FastAPI services over MongoDB, MySQL, Firebase, and Supabase. Skilled at embedding large language models (Google Gemini, OpenAI) and OCR pipelines (PaddleOCR) into production applications, containerized with Docker and deployed on Vercel and Render. Founder of DevOrbit Tech, delivering AI applications, business websites, and mobile apps. BSc Software Engineering, University of Kotli AJK — 2022–2026.

EDUCATION

Bachelor of Science in Software Engineering

2022 – 2026

University of Kotli, AJK

Relevant coursework: Software Engineering, Data Structures, Algorithms, Artificial Intelligence, Machine Learning, Database Systems, Computer Networks, Operating Systems, Cloud Computing, Mobile Application Development, Human–Computer Interaction, Software Project Management.

SKILLS

- **Frontend:** React.js, Next.js, React Native, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI
- **Backend:** Node.js, Express.js, FastAPI, REST API Design, JWT & Firebase Authentication, Nodemailer
- **AI & Machine Learning:** Google Gemini API, OpenAI API, OCR, PaddleOCR, spaCy, Python, Prompt Engineering, LLM Integration, Computer Vision
- **Databases:** MongoDB, Firebase Firestore, MySQL, Supabase
- **DevOps & Cloud:** Docker, Git, GitHub, GitHub Actions, Vercel, Render, Hostinger, Linux
- **Tools & Architecture:** VS Code, Figma, Postman · REST, MVC, Clean Architecture, Responsive Design, SEO, Performance Optimization

WORK EXPERIENCE

Founder & Full Stack AI Developer

2024 – Present

DevOrbit Tech · Kotli, AJK

- Founded and run an independent software studio delivering full-stack web apps, mobile apps, and AI-powered systems end to end — from architecture and API design through production deployment.
- Built and shipped responsive web and React Native mobile applications backed by Node.js/Express.js and FastAPI REST APIs across MongoDB, Firebase, and Supabase data layers.
- Integrated Google Gemini and OpenAI APIs with OCR pipelines (PaddleOCR) to add intelligent document parsing, insights, and automation to production applications.
- Implemented secure authentication (Firebase, JWT) and business email workflows (Hostinger, Nodemailer), and built reusable UI component libraries to accelerate delivery.
- Containerized applications with Docker and deployed on Vercel and Render, tuning performance and on-page SEO for client business websites.
- Managed Git/GitHub repositories and release workflows to deliver production-ready software for real clients.

PROJECTS

Organization Finance Management System (Final Year Project)

Tech Stack: React Native (Expo), React Native Web, Firebase Firestore, TypeScript

- Finance platform for organizations built as both a web application and a React Native mobile app from a single Expo/React Native Web codebase, sharing a common Firebase Firestore backend for real-time data.
- Delivered expense and income tracking, authentication, an analytics dashboard, and reporting across both platforms.

Student Notes

Tech Stack: React Native, Supabase

- Mobile note-taking app for students to save notes with deadlines and time-linked reminders, keeping assignments and study schedules organized.
- Added export-to-PDF with file compression, so students can generate and share compact, ready-to-print PDF notes.
- Built account login backed by Supabase, so a student's notes automatically recover and sync after signing back in on any device.

GiftyGo

Tech Stack: React, Node.js, MongoDB, Google Gemini API

- AI gift-recommendation platform generating personalized suggestions from user preferences and intelligent ranking.

Blissful Blinds UK

Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, Supabase, Nodemailer, Vercel, SEO

- Built and shipped a complete production website for a live UK blinds & window-furnishing business, covering the full customer journey from discovery to quote request.
- Implemented on-site quotation forms so customers can request custom pricing directly, with Vercel serverless functions routing submissions to the business's email via Nodemailer.
- Added chatbot integration for instant visitor Q&A and a review system (a standalone Node.js/Express service) to display customer feedback and build trust.
- Used Supabase to power a real-time admin leads dashboard and back the booking/enquiry data.
- Optimized the site for SEO and performance, improving search visibility and page-load speed for a live client audience, and deployed and maintained it on Vercel.

DevOrbit Tech Website

Tech Stack: React, Tailwind CSS, Node.js

- Official studio website showcasing software development, AI solutions, mobile apps, graphic design services, and final year projects.

EngrAhmedAqeel Blogs

Tech Stack: React, Next.js, Tailwind CSS

- Personal blogging platform for publishing technical articles and project write-ups on web, mobile, and AI development.

Personal Portfolio Website

Tech Stack: React, Next.js, Tailwind CSS

- Professional portfolio presenting projects, technical expertise, services, achievements, and contact, with a responsive UI.

For more projects and details, visit ahmedaqeeldev.com.

ACHIEVEMENTS

- Designed and shipped 10+ full-stack, AI-integrated web and mobile applications end to end as founder of DevOrbit Tech.
- Built cross-platform systems sharing a single backend across web and React Native mobile apps, including the Organization Finance Management System.
- Delivered a production UK business website for a live client with SEO and performance improvements, chatbot, and integrated business email.
- Containerized and deployed multiple applications to Vercel and Render with Docker, maintaining reliable, production-ready release workflows.

ADDITIONAL

- **Soft Skills:** Leadership · Problem Solving · Critical Thinking · Communication · Team Collaboration · Project Management · Analytical Thinking · Adaptability · Continuous Learning
- **Languages:** English (Professional) · Urdu (Native)
